

COMBER HEIGHTS

9/9 Comber Place, Comber Heights,
Johnsonville, Wellington

A Coronation Real
Estate development

Stunning bay vista

Architect's impression of 9/9 Comber Place from front and top

Floor area 139m²; land area 352m² (subject to final survey)

Architecturally designed and unique, this freestanding home offers an exclusive address and views. This two-level home faces to the east, with stunning views over Wellington bays. It includes block wall construction and double glazing, for sound and weather insulation. No expense is spared with tasteful décor, modern fittings and fixtures, halogen lighting, Bosch appliances and luxury long-life carpets.

The main entry and internal access garaging are on the lower level, with two good-sized bedrooms with built-in robes and the main bathroom. Upstairs is the master bedroom with en suite and built-in robe. There is a large kitchen/dining area and spacious lounge with large windows to enjoy the breathtaking panoramic views to Wellington's east. There is also a study on the upper level. Extra parking spaces are offered within and outside the development. Step outside to the private patio and landscaped garden area to entertain or relax.

Data wiring for Wi-Fi/iPTV/digital is provided in both living areas and in bedroom two, so watch iPTV or work at home without the need for additional cables or relying on Wi-Fi alone. Chorus has completed provision of fibre-optic in the area – the fastest internet connection available.

This ideal location balances convenience for access to Johnsonville and Wellington CBD, and reputable schools, with proximity to rolling countryside with walking and cycling tracks.

For brand new properties of this exceptional quality and generous size inside and out in Wellington there is no comparison. Come and see to believe! Houses 1/9 and 2/9 are complete.

Key specifications for 9/9 Comber Place

- Freestanding house built on two levels
- Internal access garage and main entry on lower level
- Two bedrooms and main bathroom on lower level

Fee simple titles

The value of these properties is further enhanced by the fact that they will all have fee simple and not unit titles. This gives each owner the advantages of fee simple ownership within an exclusive, upmarket development.

Residents society

An incorporated residents society exists to manage the maintenance of shared areas – the driveway, shared garden areas and lighting of the pathways. This arrangement is common for developments which have some shared facilities where they will not be maintained by the council as they are part of the development and are on private land. The costs will be met equally by the owners of the properties in the development and the society will be managed by those owners. No other costs are included under the jurisdiction of the residents society and the impost will be minimal while ensuring a high standard of upkeep of the development.

Sections available for other Comber Heights properties

The Comber Heights development has 10 approved properties, of which the first two are complete (1/9 and 2/9 Comber Place) with most of the remaining sections available for sale. Please refer to individual properties on the website for up-to-date sales status. Titles for all sections are expected to be available by early 2019.

All houses in the development will have three bedrooms, two bathrooms and internal access garage. All will be unique. See the plan for each house, key specifications, architect's impressions and how it fits within the Comber Heights development at: www.coronation.co.nz.
